Concerns: _____

Surgical Procedure: Dental Cleaning and Polishing with possible extractions

If Extractions: Often the full extent of extractions is not known until your pet is fully anesthetized and an oral exam can be performed. In the event your pet needs extractions how would you like us to proceed.

- Call to discuss any **unexpected** extractions before proceeding
- Pull any teeth deemed necessary
- Pull any teeth deemed necessary up to \$ _____

Pre-dental and post-dental photos will be taken. Would you like them?

No Photos E-mail Photos ; preferred email address _____

Any other procedures requested: _____

Growth Removal Would you like the growth sent for analysis? No Yes (additional fees apply)

Location of lump(s): _____

Intravenous fluids will be administered during anesthesia to help maintain blood pressure, increase circulation and help your pet recover more quickly.

A 24-hour injectable pain medication is given post-operatively. Your pet will also be sent home with 3 days of an oral anti-inflammatory medication to be given at home to reduce pain and inflammation.

Surgical Options (Check accept or decline)	Cost	Accept	Decline
Presurgical blood test for pets under 7 years: Checks for proper organ functions, oxygen carrying ability of blood, ability to fight infection, platelets for proper clotting and to establish a baseline for future reference.	\$89.50	<input type="radio"/>	<input type="radio"/>
Presurgical blood test for pets 7 years and older: Same as the presurgical blood test above but includes more extensive testing.	\$131.50	<input type="radio"/>	<input type="radio"/>
Elizabethan Collar: Prevents licking or chewing of the incision area.	\$9.60-48.99	<input type="radio"/>	<input type="radio"/>
Medical Shirt: Prevents licking or chewing of the incision area.	\$40.06-46.95	<input type="radio"/>	<input type="radio"/>
These are not needed for dental procedures but may be used for some growth removals.			
Pedicure: Nails are clipped while your pet is anesthetized.	No Charge	<input type="radio"/>	<input type="radio"/>
Vaccinations: Our clinic recommends all pets have up to date vaccines. This helps prevent the spread of infectious diseases.			
Core vaccines: \$104.50-134.50	I authorize vaccines <input type="radio"/>	My pet is vaccinated <input type="radio"/>	I decline vaccines at this time <input type="radio"/>

I authorize the veterinarians and staff at Victoria Vet Clinic to perform cardiopulmonary resuscitation (CPR) (including chest compressions, intubation, and emergency medications) in the event of a respiratory or cardiac arrest.

Accept Fees apply Decline

I authorize and direct the Veterinarians of the Victoria Veterinary Clinic to perform the services indicated above and/or do any other therapeutic procedures that in their judgment may dictate to be advisable for my pet's well-being. The risks and nature of the procedures have been explained to me, and no warranty or guarantee has been made as to the result or cure.

I hereby authorize and direct the Victoria Veterinary Clinic to provide such additional services for my pet as they deem reasonable and necessary, including, but not limited to the administration of anesthesia and the performance of services involving pathology and radiology, and I hereby consent thereto.

Fees must be paid before my pet leaves the clinic.
